Subject: Microsoft Settlement

Dear Sir or Madam:

Please place me on the side of encouraging the parties to settle this ridiculous lawsuit! It should never have been filed in the first place, and I can't believe Microsoft is even willing to settle! The company was enormously successful simply because they had the best product on the market. Unfortunately, in this country, success breeds contempt, especially from the government. It honestly disgusts me. Anyway, if Microsoft is willing to settle, please quit wasting taxpayer dollars, and end this once and for all!!!!!!!!!!!!!! Thank you.
